Mentor Feedback

- Mid-Iteration Feedback
 - Looks good!
- End of Iteration Feedback
 - Iteration 2 looks good!
 - This was the only feedback for this iteration
 - For next iteration, we could display only certain initiatives instead of all initiatives
- Changes
 - No changes for this iteration

Client Feedback

Iteration 3 Features

- Create initiative shift page (view and state)
- Create a user profile page (view and state)
- Make initiative list page only return the initiatives created or managed by the logged in user
- Modify the QR scan state to check-in a user when their QR code is scanned
- Move QR scanning functionality into initiative container
