Team Member Contributions

- **Allow people to register who have apostrophes in their names:** Riley

- **Disallow a single space to register for the app:** Riley

- **Add extra padding to bottom of initiative page:** Matt

- **Add extra padding to bottom of initiative shift page:** Matt

- **Add way to display more initiative shift information:** Casey

- **Encode less information into initiative QR codes:** Clay

- **Make check-in/check-out snackbar more appealing and legible:** Casey

- **Make text buttons look similar to before:** Jacob

- **Create a schedule page:** Matt, Casey

- **Make profile page to be accessed via drawer:** Jacob

Report (Mentor)

Mid-iteration

- Logged into both the manager and volunteer accounts, and tested existing features alongside newly implemented ones.
- On Tim's phone, when backspacing in the app, it would delete two characters instead of one.
  - Team tried to replicate bug both during and after the presentation, but was unable to. Assumed it was just a strange error with Flutter.
- Intentionally looked for past participated initiatives on the app, but was unable to.

End of Iteration Report

- Tim went through app's functionality like before.
- Noticed how notifications stacked over each other.
- Found all of the information he expected to find.

Mentor Feedback

Mid-Iteration Feedback

- Change "No initiatives found" text to instead display past initiatives they volunteered for.
- Look into backspace deleting twice.
- On schedule page, the team could decide whether to bring in newly added TRS tables.
- Not recommended to add feature to check into initiatives without shift functionality, due to it being too daunting for one iteration.

End of Iteration Feedback

- It would be nice to add a dollar sign to the donation amount to clarify the value's meaning.
- Good job on updating the schedule page.
- Approved of fixed registration bugs and improved initiative shift card.
- Updated documentation looks good.

Report (Client)

- Client visited old functionality first.
    - Went through self-check-in process. Checked in and out flawlessly.
    - Tested QR code functionality. Successfully used all QR code check-in/check-out features.
    - Visited profile page.
- Client visited newly added features.
    - Visited the schedule page.
    - Navigated to profile page through its new location in app drawer.

Client Feedback

- Feedback
  - Approved of updated QR code and visually improved notifications.
  - Approved of the newly added schedule page.
  - Noted improved readability of notifications compared to previous iteration.
  - Overall, Virginie did not point out anything as lacking.

Orientation

Capstone

Graduation

"Do you hear that? It's the winds of change." - Randall Boggs
